

Maibec CanExel™
Engineered Cladding

Six finishes, *one* garden room.

THE COLLECTION

A homeowner's guide to Maibec CanExel engineered cladding, six factory-finished colours, shown on real garden rooms.

INTRODUCTION

A quieter kind of *garden room.*

Maibec CanExel is the only engineered high-density fibre (HDF) cladding of its kind. Factory pre-finished in six considered tones, it arrives ready to install, no on-site painting, no ongoing treatments.

It weathers the British climate without fuss. It won't shrink, split, or warp like traditional timber. And it makes a garden room feel less like a shed and more like a building.

This brochure walks each finish across a real garden room, so you can see the colour, grain, and the way it handles light - before you commit to a finish for your own.

Maibec CanExel
Engineered Cladding

NO. 01 OF 06

SOFT SAGE

Acadia.

A muted, lichen-Green Grey that softens into the planting around it. Best on garden rooms surrounded by foliage, it reads as natural in almost any light.

PROFILE | VSTYLE™ RIDGED PINE, VERTICAL

FINISH | FACTORY, MATT

PAIRS WITH | ANTHRACITE TRIM · OAK DECK

PLANK SIZES | 2440 × 305 × 9.5 MM / 3658 × 305 × 9.5 MM

NO. 02 · BLACK

NO. 02 OF 06

DEEP BLACK

Black.

The quietest of the six. A deep, saturated Black that disappears into the evening and pushes the garden, and its lighting, forward. An architect's default, for good reason.

PROFILE | VSTYLE™ RIDGED PINE, VERTICAL

FINISH | FACTORY, MATT

PAIRS WITH | WARM LINEAR LIGHT · PORCELAIN

PLANK SIZES | 2440 × 305 × 9.5 MM / 3658 × 305 × 9.5 MM

CANEXEL · BLACK

04 — 10

NO. 03 OF 06

COOL SLATE

Granite.

A Blue-leaning slate that holds its character in every light. It sits naturally against UK fencing, render, and stone, the most forgiving of the darker tones.

PROFILE | VSTYLE™ RIDGED PINE, VERTICAL

FINISH | FACTORY, MATT

PAIRS WITH | GRAPHITE GLAZING · GREY PORCELAIN

PLANK SIZES | 2440 × 305 × 9.5 MM / 3658 × 305 × 9.5 MM

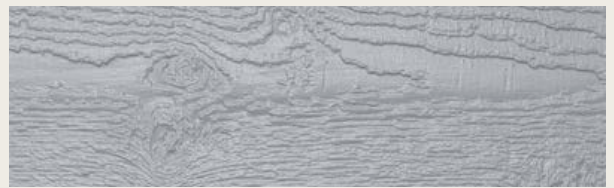

NO. 04 OF 06

PALE STONE

Mist Grey.

A chalky, almost-White Grey that lifts shaded gardens and reads fresh against planting. The easiest of the six to live with for homeowners who want light.

PROFILE | VSTYLE™ RIDGED PINE, VERTICAL

FINISH | FACTORY, MATT

PAIRS WITH | BLACK ALUMINIUM · PALE OAK

PLANK SIZES | 2440 × 305 × 9.5 MM / 3658
× 305 × 9.5 MM

NO. 05 OF 06

WARM TIMBER

Sierra.

The one warm tone in the range. A deep, stained Walnut that keeps the woodgrain legible, the choice when you want the room to feel like timber, not a colour.

PROFILE | VSTYLE™ RIDGED PINE, VERTICAL

FINISH | FACTORY, MATT

PAIRS WITH | BLACK TRIM · STONE PAVING

PLANK SIZES | 2440 × 305 × 9.5 MM / 3658 × 305 × 9.5 MM

NO. 06 OF 06

MID GREY

Timberwolf.

A neutral mid-Grey that sits squarely between mist and granite. The safest choice when the room must complement a house rather than dominate a garden.

PROFILE | VSTYLE™ RIDGED PINE, VERTICAL

FINISH | FACTORY, MATT

PAIRS WITH | NATURAL OAK · CONCRETE TILE

PLANK SIZES | 2440 × 305 × 9.5 MM / 3658 × 305 × 9.5 MM

The palette *together.*

Each CanExel board is pre-finished at the factory, so the colour you see on these swatches is the colour that arrives on site — stable through sun, frost and a decade of British weather.
